

Yoruba Rose Floor
INGO MAURER TEAM 2020

Paper, metal, stainless steel, silicone. Yoruba Rose Floor is a new version of the floor lamp Yoruba Rose. Just as in all other MaMo Nouchies, the lampshade consists of Japanese paper, which has to undergo a special manufacturing process in Dagmar Mombach's studio, until the desired shape is achieved. The light source is an LED module, provided with a cooling element, developed by Ingo Maurer especially for the MaMa Nouchies. Its light is so warm and soft, that any difference can hardly be noticed when compared to conventional halogen light sources.

Light source

LED 9 W, 970 lm, 2700 K, CRI>90, EEC A+. With built-in LEDs. The light source is not exchangeable by the user, but by an electrician.

Technical data

For 100-240 volts. Dimmable.
